18. FIXING PROBLEMS

18.1 Delay: If Goods/Services (including repaired or replacement Goods/Services) Ordered by Irish Distillers are not delivered on the due date (or by any deadline extension granted by Irish Distillers) and in accordance with the standards required by the Contract, Irish Distillers may, at its sole discretion do any of the following:

- **Cancel:** cancel the relevant Order (in whole or in part) and refuse to take any subsequent attempted delivery of those Goods/Services;
- **Expedite delivery:** specify a revised due date for delivery of the Order (in whole or in part) and, in the case of Goods, require the Supplier to arrange for compliant Goods to be delivered at no additional cost to Irish Distillers, to the original or an alternative delivery location specified by Irish Distillers by air freight (or by any other accelerated method reasonably requested by Irish Distillers); or
- **Substitute:** if the Supplier fails to meet any revised due date (or indicates that it cannot or will not comply with it), Irish Distillers may order substitute Goods/Services from an alternative supplier and require the Supplier to repay to Irish Distillers the reasonable additional costs Irish Distillers consequently incurs.

18.2 Defective Goods: Irrespective of any payment made, opportunity to inspect Goods (or samples) or any documentation concerning 'acceptance', if the Supplier supplies any Goods (including repaired or replacement Goods) that do not meet the standards required pursuant to the Contract (or any batch containing such defective Goods) then the Supplier shall, at Irish Distillers' request, do any or all of the following (as specified by Irish Distillers), either in relation to the whole batch or any part of the batch (as specified by Irish Distillers):

- **Help resolve:** provide such help and support (without additional cost to Irish Distillers) as Irish Distillers may reasonably request to identify the defect, its cause and the Goods affected by it (including by refunding to Irish Distillers all costs reasonably incurred by Irish Distillers in connection with the identification, inspection, testing and processing of Goods/batches which Irish Distillers reasonably determines may be affected by the defect);
- **Repair, replace or substitute:** repair or replace the Goods at no additional cost to Irish Distillers within a timescale reasonably requested by Irish Distillers (and, if the Supplier fails to do so, Irish Distillers may appoint another supplier to rework or replace the Goods and require the Supplier to reimburse Irish Distillers for the reasonable additional costs that it incurs in doing so);
- **Finance rework:** reimburse Irish Distillers for any additional costs reasonably incurred by Irish Distillers in reworking Irish Distillers products affected by the defective Goods (including the cost of removing the defective Goods from those products and replacing them with the compliant Goods);
- **Dispose of defective Goods:** collect or take acceptance of the Goods/batch and refund to Irish Distillers any costs reasonably incurred by Irish Distillers in connection with that return (including transport costs); and/or
- **Refund:** provide a 'credit' to Irish Distillers in the next invoice in an amount equal to the sums paid by Irish Distillers for the Goods – or, at Irish Distillers' option, refund the sums paid by Irish Distillers in respect of all the Goods (provided, in each case, that those Goods are not properly repaired/replaced at the Supplier's expense).

18.3 Cost of making up for lost time: The Supplier shall, at Irish Distillers' request, reimburse Irish Distillers for any costs reasonably incurred by Irish Distillers in Irish Distillers endeavouring to compensate for (and/or mitigate the consequences of) the Supplier's failure to deliver compliant Goods/Services on the original due date (whether via: expedited delivery of Irish Distillers products via air freight, use of overtime, weekend-working, extra staff, alternative manufacturing/assembly arrangements, rework - or otherwise).

18.4 Breach of confidence: The parties agree that damages may not be an adequate remedy for any breach of clause 16 and accordingly the Discloser shall, in addition to any other rights or remedies which it may have, be entitled, without proof of damage, to commence legal proceedings seeking relief (including injunctive relief) for any threatened or actual breach of clause 16.

19. DEALING WITH DISASTER

19.1 Catastrophic Supplier failure: To the extent arising from defective performance (or non-performance) by the Supplier of its obligations, the Supplier shall indemnify Irish Distillers and all other members of the Pernod

19.2 Management of third-party claims: Irish Distillers shall:

- 19.2.1 **Co-operate:** notify the Supplier of defects in relevant Goods/Services which are reasonably likely to give rise to a claim under clause 19.1 promptly after becoming aware of them and consult and otherwise work with the Supplier to mitigate the loss which Irish Distillers (and other members of the Pernod Ricard group) may suffer as a result of the associated product recall / third party claims; and
- 19.2.2 **Make no admission:** not make any admission of liability in relation to any third party claim to which clause 19.1 applies without obtaining prior consent from the Supplier (provided that consent is not unreasonably conditioned, withheld or delayed) – except to settle a claim if Irish Distillers reasonably determines that failure to settle the claim would be prejudicial to Irish Distillers (or to any other member of the Pernod Ricard group) in any material respect.

20. LIMITS OF RESPONSIBILITY

20.1 Decentralised group structure: If the Supplier breaches the Contract, the direct loss suffered by Irish Distillers shall be deemed to include direct loss suffered by the other members of the Pernod Ricard group (for the purposes of calculating damages) – subject to the liability caps and exclusions under the Contract.

20.2 Consequential loss exclusion: Neither party shall be liable (whether under the Contract or in tort) for any form of indirect loss.

20.3 Caps on Irish Distillers' liability: Irish Distillers' liability arising in relation to the Contract shall be limited:

22.2 Termination by Irish Distillers: Irish Distillers may terminate the Contract (and cancel any outstanding Orders without charge) on giving notice to the Supplier if:

- 22.2.1 Material breach:** The Supplier commits a material or persistent breach of any of its obligations or duties (which, if capable of remedy, has not been permanently remedied within 30 days of Irish Distillers issuing notice identifying the breach and requiring its remedy). 23. POST-TERMINATION ARRANGEMENTS

24.2 Order flexibility: Irish Distillers may at any time amend or cancel any Order(s) by notifying the Supplier and:

- **Supplier breach/cause:** where the amendment or cancellation results from the Supplier’s failure to comply with its obligations to Irish Distillers (or otherwise results from termination pursuant to clause 22.2), Irish Distillers shall have no liability to the Supplier in respect of the cancellation or reduction; and
- **Commercial requirement:** otherwise Irish Distillers’ liability to the Supplier shall be limited to payment to the Supplier of the direct costs reasonably incurred by the Supplier prior to receipt of the notice in fulfilling the Order (which shall not exceed the agreed price otherwise payable for fulfilling the Order). If Irish Distillers wishes to amend the Order to increase any Services, the Supplier shall inform Irish Distillers promptly of any resulting increase in the relevant price and shall act reasonably in assessing such increase. Once Irish Distillers has agreed the relevant increase, the Services and price will be amended accordingly.

24.3 Waiving rights/remedies: Failure or delay by any person to exercise any right or remedy provided under the Contract or by law shall not constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict any further exercise of that or any other right or remedy:

Applicable to: Customised Packaging Supply

C

i SUPPLYING CUSTOMISED PACKAGING FOR IRISH DISTILLERS' PRODUCTS

The provisions on this page apply only in relation to Goods which are to be made to a *Bespoke Design* (as defined in clause D2.1) or to a design supplied by (or on behalf of) Irish Distillers and which are intended to be used as part of packaging for Irish Distillers' products (including bottles, closures, corks, labels/stickers, boxes, shipping cases, etc.).

C1. PLACING PACKAGING ORDERS

C1.1 Business allocation: If Irish Distillers agrees to purchase a certain percentage of its annual requirement for Goods from the Supplier:

C1.1.1 Actual requirements only: Irish Distillers' commitment shall be measured against Irish Distillers' actual annual requirements for the relevant products (excluding any restage of those products) – which might differ from Irish Distillers' forecast and might cease altogether;

C1.1.2 Conditions: Irish Distillers' commitment is subject to the Supplier meeting Irish Distillers' reasonable quality, capacity, timescale, pricing, value-engineering improvement, technical capability/support and legal/contractual compliance requirements - and subject to the Supplier otherwise complying with the Contract; and

C1.1.3 Sole remedy: If Irish Distillers fails to purchase the agreed allocation then the Supplier's sole remedy shall be to terminate the Contract in relation to the relevant Goods by providing notice six months prior to termination. That termination right is subject to clause 23.1 (*pre-termination orders*) and may only be exercised in the event that the Supplier has met each of Irish Distillers' requirements referred to in clause C1.1.2 and Irish Distillers' purchasing failure is material (being a shortfall equal to more than five percent of Irish Distillers' actual annual requirements for the relevant products).

C1.2 Binding forecasts: The Supplier shall comply with the latest edition of Irish Distillers' forecasting and ordering process. Forecasts (if any) shall only be binding to the extent specified by that process. The Supplier shall review Irish Distillers' forecast promptly after it is made available and act accordingly where appropriate to achieve Irish Distillers' order requirements. If a forecast '*crystallisation period*' is agreed, Irish Distillers may place Orders for Goods via any of the following three methods:

C1.2.1 Ad hoc PO: by submitting a purchase order to the Supplier;

C1.2.2 Forecast call-off: by submission via Irish Distillers' *Procurement Team* of a call-off against Irish Distillers' forecast demand for the relevant quantity of Goods manufactured within the relevant forecast '*crystallisation period*' (calculated in accordance with Irish Distillers' forecasting and ordering process); or

C1.2.3 Paid stock: by confirmation via Irish Distillers' *Procurement Team* that the Supplier has manufactured the relevant quantity of Goods within the relevant forecast crystallisation period (converting the forecast into a binding commitment to purchase) but instructing the Supplier to treat the Goods as '*paid stock*':

- The Supplier may invoice for paid stock after holding it for a period of six months - or such alternative period as may be agreed (the "**Initial Holding Period**") (or after delivering it in accordance with Irish Distillers' instructions).
- On expiry of the Initial Holding Period, paid stock which Irish Distillers has not instructed to be delivered is, solely for invoicing purposes, deemed to have been delivered.
- The Supplier may also charge an agreed storage charge to Irish Distillers for holding paid stock for Irish Distillers after the Initial Holding Period (and shall thereafter deliver or dispose of that stock if instructed by Irish Distillers).

C2. QUALITY REQUIRED FOR CUSTOM PACKAGING

C2.1 Specifications: The Supplier shall ensure that all Goods that it supplies for Irish Distillers, on delivery (whether to Irish Distillers or to any alternative final delivery location specified by Irish Distillers) shall:

C2.1.1 Detailed specification: conform to (and have been manufactured, stored, tested, packaged and delivered in compliance with) the latest:

- agreed '*Component Specification*' (the Supplier is deemed to have automatically agreed to that specification when it is appointed to provide 'contingency supply' or otherwise manufacture to a design provided by Irish Distillers) (the Supplier must ensure that it is, at all relevant times,

aware of the latest specification by regularly checking with Irish Distillers); and

- Irish Distillers' '*General Specification*' for goods of the category Ordered by Irish Distillers (except to the extent that it requires a lower level of quality than the agreed *Component Specification* – and subject to any derogations proposed by the Supplier and agreed by Irish Distillers); and

C2.1.2 Production specification: subject to clause C1.1.1, conform in all material respects to the '*production specification*' approved by Irish Distillers (including approved plans, drawings, diagrams, samples and prototypes), if any; and

C2.1.3 Packing specification: subject to clause C1.1.1, be packed in accordance with the agreed packing specification (if any).

C3. CUSTOM TOOLING & IPR USE
